

ANDDS

Autism N Developmental Disorder Screening

- Screening app for children at risk of developmental delays
- Built for new parents and therapists
- Target age group is 8-36 months
- Includes simple questions to assess child's behavior

With guidance from **Dr. Michael Lewis** of the Autism Center at Robert Wood Johnson Medical School, WTC has developed a screening app called Autism N Developmental Disorder Screening (**ANDDS**). This app will help therapists to screen for autism or similar other developmental disorders at different phases of a child's life. The age slabs included in ANDDS are 8 months, 12 months, 15 months, 18 months, and 24 to 36 months.
